CERTIFIED ONLINE LLC

WAIVER & ACKNOWLEDGMENT

Please review the waiver carefully before submitting your project files and securing your service booking.

1. Scope of Work & Creative Services

The Directors role is strictly focused on the creative and technical side of your music. This includes providing professional execution and guidance regarding:

- **Song Structure:** Shaping the flow, arrangement, and timing of your tracks.
- **Beat Sourcing:** Helping you find and polish your unique musical style.
- **Project Sequence:** Mapping out how the tracks flow together to tell a real story from start to finish.
- **Mixing & Mastering:** Balancing levels, applying effects, and finalizing the overall audio.

2. Payment & Deliverables

All project fees cover the Directors professional time, physical labor, studio equipment assets, and technical expertise.

3. File Access & Content Consent

By submitting audio stems, project files, beats, vocals, or reference materials to Certified Online LLC, the Artist explicitly grants the Director full legal consent and authorization to access, download, open, process, manipulate, edit, and store said files for the sole purpose of fulfilling the requested audio production, mixing, mastering, and arrangement services.

4. No Commercial Guarantees

While these creative services are designed to maximize the competitive quality and artistic readiness of your music, the commercial music market is highly unpredictable. The Director is a creative collaborator, not a marketing agency, publicist, or record label. By signing this agreement, you explicitly acknowledge and agree that the Director is not legally or financially responsible for how your project is received by the public, its commercial reach, or its impact on your career. Specifically, the Director does not guarantee and is NOT responsible for the following items below:

- **FAME & VIRALITY:** Achieving viral status, public recognition, online trends, or overnight stardom.
- **RECORD DEALS:** Securing record label signings, A&R; meetings, or industry management contracts.
- **STREAMS & METRICS:** Reaching specific play counts, download numbers, or listener metrics on platforms like Spotify or Apple Music.
- **SOCIAL MEDIA GROWTH:** Increases in followers, engagement rates, or online platform traction.
- **PLAYLIST PLACEMENTS:** Securing spots on editorial, independent, or algorithmic playlists.
- **FINANCIAL RETURNS:** Any specific income, career longevity, or specific financial milestones in the industry.

5. Artist Ownership & Responsibility

The Artist retains 100% ownership and control over their career path, branding, and marketing efforts. Public reception relies entirely on external factors—such as promotional budgets, marketing execution, social media strategy, and shifting audience tastes—all of which sit completely outside of the Directors control.

6. Beat Sourcing & Licensing

The Director may assist you in discovering, sourcing, or selecting beats and instrumentals to help develop your sound. However, the Director does not own or provide the commercial rights to these third-party beats. Important Note on Licensing: The Artist is solely responsible for purchasing, leasing, and securing the proper legal licenses for any beats used in the project. The Artist must cover all costs associated with these third-party licenses. Recording over a beat does not grant automatic ownership or distribution rights.

7. Acceptance of Terms & File Consent

By signing below, you agree that you have read, understood, and accepted all the terms listed above, and you formally grant consent for file access and processing. You acknowledge that you are paying for creative production labor and audio files, not a guaranteed commercial result.
